WOMEN MUST SLEEP.

Value of Paine's Celery Compound to the Sick and Nervous.

The burdens of life are not equally borne by men and women. Women too often suffer from some weakness that was never intended for them by nature. When trouble or hard work or excitement have rendered the nervous system so morbidly wide-awake that sleep is denied, the over-tired brain must be helped to get quickly back to its healthy normal condition or serious mischief ensues. Paine's Celery Compound accomplishes this as nothing else has ever done. It at once begins to regulate and equalize the over-tired nerves and to restore to them their lost tone. It brings to the disabled, debilitated nervous tissues the peculiar nerve food which they must have to build up their parts. "I took Paine's Celery Compound for dyspepsia, nervousness and sleeplessness," says Lillie B. Smith of Williamstown, N. J., "and I can recommend it as a good medicine. As a result of taking it I feel better than I have for several years." Paine's Celery Compound is a perfect nerve food. It quickly feeds weakened parts, removes all irritation, allows the rest from pain they need so badly, and restores all the myriad sleeping nerve parts all over the body to a healthy, quiet working. This is the way this remarkable invigorator makes people well. Reports of its marvelous working come from cities as far apart as New Orleans and Montreal. There is not a town large enough to stand on a railroad map that has not contributed some word of warm praise and gratitude to the greatest nerve and blood remedy of this stirring end of the nineteenth century.

A feather renovating establishment has been started at Washington. There will be services in the Presbyterian Church at Washington Sunday at half-past 8 o'clock. The Kentucky Trotting Horse Breeders' Association of Lexington has closed a fortnight for Liberator's famous band to furnish music during the October trots. The Flemingsburg Times-Democrat says: "We will raise a better quality of tobacco in this county than we did last year, and the yield will be probably as large. The weed has been growing out and ripening well in the past two weeks."

Catarh Cannot be Cured with Local Applications, as they cannot reach the seat of the disease. Catarh is a blood or constitutional disease. The only cure you must take internal remedies. Hall's Catarh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarh. Send for testimonials, free. **W. F. A GOOD LADY GONE.

Mrs. Mary Worick Passed Away Last Night at 11 O'clock.

Mrs. Mary Worick, whose illness has been noted in these columns, died last night at 11 o'clock, aged about 48 years. She was stricken with paralysis Monday afternoon and although the best medical skill was employed, she never regained consciousness.

She has been a great sufferer all her life from an affection of the head, and last spring she received a slight stroke of paralysis, but it was of such a slight nature she never gave up.

CHRISTIAN ENDEAVOR.

The Second District Union Meet in This City a Success.

The annual convention of the Second District Union of the Young People's Society of Christian Endeavor is now in session in this city at the Central Presbyterian Church.

The delegates in attendance are very near all young people, and our citizens should feel honored and complimented to the highest degree from the fact of there being so many handsome young ladies in attendance, and that this Convention and their presence will do Maysville a power of good no one doubts in the least.

The Convention was called to order by the President, Mr. John M. Scott, yesterday afternoon, and the welcome address was delivered by Police Judge A. A. Wadsworth, which is an address that one would have to read or hear delivered to appreciate it. The Ledger regrets its inability to place it before its readers today, but will have it Tuesday.

After several good addresses and some exceedingly pretty music the meeting was adjourned until last night, when at 7 o'clock it was again called to order, and after a song service of thirty minutes the program was gone through with.

SUDDENLY SUMMONED.

Mr. John Gleason Passed Away Yesterday Afternoon.

Mr. John Gleason, whose place of business and residence is at the corner of Front and Limestone streets, died yesterday afternoon at a late hour from apoplexy.

He had been out on the street about an hour before, and when he went home he complained to his wife of not feeling very well and went to his room and to bed, when presently his wife noticed his hard breathing and summoned Dr. John A. Reed, who pronounced him beyond the aid of all human skill.

Mr. Gleason leaves a wife and a daughter.

He came from Sharpshooter to this city some time ago and engaged in the grocery business, and made many friends, all of whom were shocked to learn of his sudden summons.

The funeral will be held at the residence tomorrow afternoon at 2 o'clock. Burial at Washington.

ONE WRONG.

Hon. A. P. Gooding of Mayslick Mentally Deranged.

News reached this city yesterday afternoon that Hon. A. P. Gooding, a most prominent citizen of this county, had suddenly become mentally deranged and had tried to kill his wife.

After diligent inquiry it was ascertained that such was the rumor abroad at Mayslick, but the derangement was thought to be only of a temporary nature.

There are various opinions as to the cause of his mental derangement.

One is that the great medicated consumption-curing spring being on his place, and it having gained a world-wide reputation, the orders for the water have been pouring in for the past week or ten days, and the spring having gone dry, together with several other matters, weighed so heavily upon his mind that it was impossible for him to bear the strain.

Mr. Gooding was a man that has made many friends in this county, all of whom are sorry in the extreme to learn of his misfortune, and it is to be hoped that it is only of a temporary nature, and that he will come around all right.

We Are Going Out of Business! WE MEAN JUST WHAT WE SAY! Having determined to engage in other business, we will close out our entire stock of **AT COST! AMMUNITION

And Rifles Probably Intended for Shipment to Cuba.

Attention of Authorities at Wilmington, N. C., Called to the Fact.

It is claimed this is a violation of the neutrality laws which prohibit the sale of rifles in special car No. 894 over the Pennsylvania railroad have been shipped to Southport, N. C., to be transferred to the steamer Commodore. The Commodore is the same steamer reported Thursday as being at Wilmington, N. C., and loading with arms for the United States of Colombia. It is suspected the real destination of the arms is Cuba.

Acting Attorney General Conrad telegraphed U. S. District Attorney Aycock and U. S. Marshal Carroll, calling their attention to the facts and instructing them to see that no violation of the neutrality laws of the United States is committed. The fact, however, is that the shipment of arms is a legitimate traffic which can be carried on at the shipper's risk even in time of war, and no state of war has yet been proclaimed in Cuba.

The enlistment of men for service against a foreign power is prohibited, but no restriction is imposed either by international law or the statutes of the United States against the shipment of arms. Should an armistice be declared, the Spanish officials capture them, that would be the shipper's loss. The claim would be against the United States for breach of neutrality.

Adm. Beardslee, in command of the Pacific station, Friday wired the department a despatch from Capt. Pigman, in command of the Bennington, dated Honolulu, September 8, in which he reported no cases of cholera on board his ship, which that day had gone to Tahiti, one of the nearby islands. There were 37 deaths on shore that day the despatch was sent.

The treasury stated gold reserve Friday at the close of business stood at \$95,362,498. The treasury was informed that \$10,000,000 of gold was shipped to New York for export and \$75,000,000 deposited in exchange for currency.
